Mission Statement:

Step of Love aims to keep hotel linens out of landfills by recycling and redesigning them. We also repurpose these linens for donation to those in need, including the homeless and pets, with the help of dedicated teams.

Step 1:

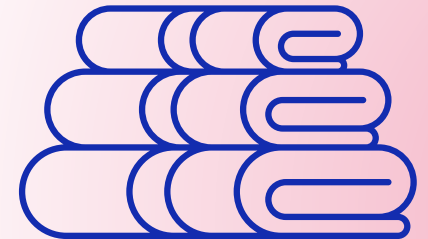

There is a constant demand to produce new items for customers, which creates a clear environmental need in the hospitality industry to recycle linens.

Step 2:

We upcycle linens and donate them to those in need in our community.
